

**OXI PUR**<sup>®</sup>

A pleasant  
feeling  
of cleanliness

**Sutter**  
PROFESSIONAL  
Hi-cleaning Solutions

# OXIPUR® The complete range of products for washing all types of fabric.

**Sutter**  
PROFESSIONAL

Based on research work and innovation, the Sutter Professional laboratories have created OXIPUR, a new range of products for professional laundries, care homes, hotels, canteens and health authorities. A complete range of detergents, additives and fabric softeners for automatic and manual dosing systems with new fragrances and high performing formulas including the **SOFT POWER CAPS** fabric softener which, with its special patented micro caps, releases a pleasant, long-lasting fragrance when the fabric is rubbed even after ironing. Oxipur products are tough on dirt but delicate on fabrics. By using new raw materials, it does not affect colours but removes all types of stains. The range suits every professional need from specialised laundries to care homes, hotels and health authorities

with detergents for all types of fabric and disinfecting additives with bactericide and fungicide action.

New Perfumes

# MANUAL DOSING

## CLEAN ACTIVE

### Scented detergent

Removes the most stubborn of stains

Phosphate-free

Suitable for all types of fabric

Effective against stains even at low temperatures

## DELIWOOL

### Detergent

For wool or delicate fabrics

Suitable for both hand and machine washing

Active oxygen-based disinfectant  
Peracetic acid  
Additive in automatic washing of all fabrics except wool and nylon at low and medium temperatures  
Used with automatic dosing device  
Medical surgical device no. 19602

### SOFT POWER CAPS Fabric Softener

Highly scented

Also suitable for delicate fabrics  
Patented technology with scent in micro-capsules  
Long lasting scent, even after drying and during ironing

## Automatic dosing system. Simple and safe.

With the automatic dosing system the liquids are automatically pumped into the washing machine so you do not have to manually dose the detergents and you use the correct amount of product at each wash.

- No waste caused by overdosing
- No direct contact with products
- Simple training of personnel
- Maximum flexibility and easy to use
- Better care of fabrics
- Optimised quality/price ratio due to correct programming
